SUMMARY

Frontend Developer with 2 years of experience specializing in building scalable, performant, and responsive web applications using React, TypeScript, and modern UI frameworks. Proven ability in optimizing web performance, implementing secure solutions, and creating intuitive user interfaces. Adept at collaborating with cross-functional teams to deliver high-quality products that exceed user expectations.

TECHNICAL SKILLS

Frontend: React, TypeScript, Tailwind CSS, Bootstrap, HTML, CSS, Redux, DOM Manipulation, Canvas API, Responsive Design, Cross-Browser Compatibility, Performance Optimization

Programming Languages: JavaScript, Java, Python, C++

Backend: Node.js, Express, REST APIs, Socket.io, Microservices

Authentication: OAuth2, JWT

Tools: Git, Docker, Azure DevOps, Linux, NPM

Databases: MySQL, MongoDB

CI/CD: Automated integration and deployment pipelines

Other Skills: Problem Solving, Communication, DSA, Agile Methodologies, Unit Testing, API Integration, Code Reviews

EXPERIENCE

Software Engineer — Fullstack Developer

Jun 2023 – Present

Celebal Technologies

Jaipur, India

- Enhanced application performance by 25% through efficient state management and UI optimization with React and TypeScript.
- Built reusable components and implemented best practices for scalability, reducing code redundancy by 30%.
- Integrated secure authentication mechanisms (OAuth2, JWT) and collaborated with backend teams to design RESTful APIs.
- Conducted regular code reviews, improving overall team code quality and adhering to industry standards.
- Optimized frontend performance, achieving a 20% reduction in page load times and improving user experience.

Web Developer Intern

Jul 2022 – Aug 2022

Wisflux Academy

Jaipur, India

- Developed a React-based image compression app, reducing image processing time by 40% and improving API efficiency with Express.js.
- Created and deployed **Docker images** for streamlined development and deployment workflows.
- Utilized Git for version control, ensuring seamless collaboration in a team environment.

PROJECTS

Trading Chatbot with Real-time Admin Dashboard | *React, React Native WebView*

Apr 2024 – Aug 2024

- Built a real-time chatbot supporting LTR and RTL languages, enhancing usability for a diverse audience.
- Implemented OWASP security standards, addressing XSS protection, allowed origin policies, and data validation.
- Applied AWS Cognito tokens and Azure AD RBAC for secure authentication and user management.
- Designed a responsive admin dashboard with real-time data updates and timezone-based adjustments.

Contract Management System | *React, Crypto-js, MSAL*

Nov 2023 – Jan 2024

- Developed a secure system with role-based access control, ensuring data privacy for multiple clients.
- Applied AES cryptography for secure document storage, reducing data exposure risks by 50%.
- Implemented data separation for organization and account levels to comply with privacy regulations.

Call Analytics Dashboard | *React, TypeScript, Tailwind CSS, Responsive Design*

Aug 2024 – Oct 2024

- Designed an interactive dashboard with React and TypeScript, visualizing real-time data with optimized APIs.
- Enhanced user engagement by 20% through intuitive design and seamless user experience.

EDUCATION

Central University of Rajasthan

B.Tech in Computer Science and Engineering
CGPA: 8.13

Kishangarh, Rajasthan

Jul 2019 – May 2023
